

# IOSH Working Safely

Course code	IOSHWS
Duration	1 day
Location	Customer's own site

## Who should attend

Working Safely is designed to train workers to ensure that their actions contribute to Health and Safety in the workplace and that individual responsibilities are clearly understood.

## Objectives

- Defining safe working, identifying hazards and risks, selecting or seeking advice on workplace precautions and assisting managers to prepare risk assessments.
- Workplace precautions for sources of hazards: fire, manual handling, electricity, display screen equipment, chemicals and substances, work equipment, movement of people, poor housekeeping and noise.

Improving the organisation's safety performance, including reporting relevant accidents and incidents, monitoring work activities, commenting on health and safety policy, complying with requirements for control in safety management, co-operating with managers in safety activities, communicating on safety matters and identifying competences required for safe working.

## Content

The course provides a basic grounding in health and safety issues and assists employees to understand their legal responsibilities.

## Learning approach

A highly interactive course supported by multi media presentations.

## Features

The course may be delivered as part of an induction programme, but it can also form part of ongoing training. The course ends with a written test paper leading to achievement of a national certificate.
